

# Center for the Integration of Research, Teaching, and Learning

**CIRTL**  
*Network*

## CIRTL's Interactive Web Courses Spring 2010

*Interactive, synchronous, online learning with a national group of graduate students and post docs from CIRTL Network universities*

*Howard University \* Michigan State University \* Texas A&M University \* University of Colorado at Boulder  
University of Wisconsin-Madison \* Vanderbilt University*

### Effective Use of Technology in Teaching and Learning

Instructors: Folahan Ayorinde, Howard University  
Alan Wolf, University of Wisconsin-Madison  
Time: Thursdays 2:30-4:30 ET/1:30-3:30 CT/12:30-2:30 MT

Develop new approaches in the effective use of instructional technology in your teaching and learn how those choices can affect the learning of diverse student populations. Participants will complete a research project to evaluate how technology affects student learning.

*"I have a clearer idea of how different technologies can be used in teaching to greatest effect."*

Effective Use of Technology in Teaching, 2009

*"Opened a whole new world, and gave me much food for thought."*

Diversity in the College Classroom, 2009

*"I learned just as well as in a regular classroom, maybe even better, since students came from very diverse backgrounds and universities."*

Diversity in the College Classroom, 2009

### Diversity in the College Classroom

Instructors: Don Gillian-Daniel, University of Wisconsin-Madison  
Chris Pfund, University of Wisconsin-Madison  
Time: Wednesdays 11:00-12:30 ET/10:00-11:30 CT/9:00-10:30 MT

Consider issues of diversity and how to address them effectively in your classroom. In addition to examining how we define diversity and discussing how those definitions might influence what and how we teach within our discipline, participants will create an action plan for addressing diversity in their teaching.

*"I have begun to develop my own philosophy of education."*

Effective Use of Technology in Teaching, 2009

### How Teams Work - and How to Work Better in Teams

Instructor: Patricia Rankin, University of Colorado at Boulder  
Time: Tuesdays 7:15-8:15 pm ET/6:15-7:15 pm CT/5:15-6:15 pm MT

Examine topics in leadership, management, decision making, and social science that will help you understand the dynamics of teams and how process can support better decision making. Learn how to be an effective team participant especially in multidisciplinary or multicultural teams. These skills are critical for future change agents, for example people who want to advance the integration of research, teaching, and learning in their departments and campuses.
